29 January 2004

Note for CIML Members

Subject: Working Group for the Revision of the *Directives for Technical Work*

Dear CIML Members,

As decided at the 38th CIML Meeting in Kyoto, the Bureau must set up a working group to develop a revision of the *Directives for Technical Work*. The Secretariat of this working group will be held by the Bureau.

This working group will work according to the procedures defined in the present *Directives*, although we shall try to accelerate its work as far as possible. We shall work mainly by correspondence, using e-mail.

The first draft revision of the Directives will be sent to members of this working group as soon as possible, and the organization of a meeting will be considered, probably at the end of 2004 after a first round of comments.

You are kindly asked to let us know whether you wish to be recorded as a P-Member or an O-Member of this working group. Your answer should be sent by the end of March. We expect in particular as P-Members the countries who are responsible for running Secretariats of TCs and SCs, but also countries who intend to increase their responsibilities in OIML technical work.

Best regards

J.F. Magaña
BIML Director
