**Note  
for OIML Issuing Authorities and *OIML Certificates* Applicants**

Dear Colleagues,

The CIML will hold its 40<sup>th</sup> Meeting in Lyon (France) in June 2005, in conjunction with the 12<sup>th</sup> International Congress of the French *Collège de Métrologie*. This occasion will also mark the Fiftieth Anniversary of the OIML.

Every two years, this International Congress gathers together about 600 representatives of national authorities, technical bodies and industries concerned with metrology issues, and presents recent scientific, technical and industrial developments in metrology.

The joint organization of the OIML Anniversary and this Congress will allow legal metrology bodies and manufacturers of measuring instruments concerned by legal metrology to better make known their activities, and to establish contacts with other participants. A session on legal metrology will also be organized.

Legal metrology bodies (in particular *OIML Certificate* Issuing Authorities) and manufacturers of measuring instruments covered by legal metrology, are invited to actively participate in the Congress by submitting proposals for presentations and attending the exhibition which will run concurrently with the Congress. You will find attached a *Call for Papers* issued by the organizers of this Congress. Further details are available on the following web site:
