

BIML 06 N° 423/JFM

04 October 2006

Note for CIML Members

Subject : Supplement 1 to GUM

Please find attached the final draft of the Supplement 1 to GUM – Propagation of distributions using a Monte Carlo method.

This draft was realized by Working Group 1 of the Joint Committee for Guides in Metrology, JCGM/WG 1. This Working Group consists of experts appointed by the eight Member Organizations of the JCGM, i.e. BIPM, IEC, IFCC, ILAC, ISO, IUPAC and OIML.

We are now at the approval stage of this document and the OIML must send its comments no later than 15 December 2006. It should be remembered that the VIM, as well as the GUM, are published as JCGM publications and not as publications of each Member Organization. Therefore, the OIML Directives for Technical Work do not apply strictly, and the following procedure will be used:

- CIML Members are requested to send their comments on the attached draft to the BIML no later than **November 27th, 2006**,
- The Bureau will summarize the OIML comments and forward this summary to the JCGM,
- The CIML should adopt a resolution empowering the BIML Director to approve, if appropriate, the final document during the JCGM Meeting.

Yours faithfully,

J.F. Magaña
BIML Director
