

BIML 08 No. 352/JFM-CP

2008.07.22

Note to CIML Members

Subject: Inquiry concerning the degree of implementation of OIML Publications by Member States and Corresponding Members

Dear Colleagues,

As we do before each International Conference, we have compiled an inquiry concerning the degree of implementation of OIML Publications by Member States and Corresponding Members.

Whereas in previous Conference years we distributed paper copies, for 2008 the inquiry is now accessible online via the Members' Page of the OIML web site (<http://www.oiml.org/members>).

As it is linked in to our online database, as soon as you have completed the inquiry your data will be instantly stored on our server, hence saving us time as the BIML will not have to sort and analyze the results manually.

We have endeavoured to make the online forms as easy to fill in as possible. Whilst there are a number of pages to fill in, you do not have to complete them all in one session; you may finish in a subsequent session or even in subsequent sessions. And the fact that the inquiry is now online means that you may update the relevant information each time a new or revised regulation is issued in your country.

This inquiry will therefore become a permanent source of information for all stakeholders concerning the existing regulations – and their degree of implementation – in OIML Member States and Corresponding Members.

We would be grateful if you would kindly complete the inquiry as soon as possible, so that we can make comprehensive information available prior to the 13th Conference which will be held in Sydney at the end of October.

Thank you for your continued cooperation; please do not hesitate to contact us should you require further information or assistance.

Jean-François Magaña
Director
