

**NOTE**

**for CIML Members  
and OIML Corresponding Members**

**Subject: Feedback on the use of OIML D 1 *Elements for a Law on Metrology***

Dear Colleagues,

As requested by the Thirteenth International Conference in Sydney, OIML TC 3 will shortly begin revising OIML Publication D 1 *Elements for a Law on Metrology*.

To this end, it will be very helpful for us to obtain feedback from those OIML Members who have used this Document when revising or amending their national law on metrology.

If this is the case in your country, I would be very grateful if you could send me a short note explaining how you used this Document, which elements you found to be most appropriate, and any issues that were lacking or insufficiently developed, which would have been useful for your work.

If possible, please send your comments to the Bureau **by 31 December 2008** so that we can analyze them early in 2009 and then draw up a first Draft Amendment of this Document.

Thanking you for your continued support,

Yours faithfully

J.F. Magana  
BIML Director
