

**Note
to CIML Members, Corresponding Members
and OIML Issuing Authorities**

Subject:

- **Publication of OIML R 143:2009 *Instruments for the continuous measurement of SO₂ in stationary source emissions***
- **Inclusion in the OIML Basic Certificate System**

Dear Colleagues,

We are pleased to inform you that a new OIML Recommendation R 143, related to instruments for the continuous measurement of SO₂ in stationary source emissions and developed by OIML TC 16/SC 1, has been published further to its approval at the 44th CIML Meeting in October 2009.

This Recommendation includes the metrological and technical requirements, the testing procedures and an Evaluation Report Format. Consequently, on the basis of Resolution no. 19 approved at the 43rd CIML Meeting (2008), OIML R 143 has been included in the OIML Basic Certificate System.

OIML Issuing Authorities wishing to issue OIML Basic Certificates of Conformity for this category of measuring instruments are kindly invited to contact the CIML Member of their country to request designation and subsequent registration by the BIML.

Please do not hesitate to contact us if you require any additional information.

Yours faithfully,

Mrs. Régine Gaucher
