

BIML 10 No. 678/WK-cp

23 November 2010

To: CIML Members and OIML Corresponding Members

**Subject: 1 CD of Evaluation of measurement data – Supplement 2 to the  
“Guide to the expression of uncertainty in measurement” –  
Extension to any number of output quantities**

Dear Colleagues,

CIML Members are invited to provide comments on the above-referenced First Committee Draft (1 CD), developed by Working Group 1 (WG 1) of the JCGM (Joint Committee for Guides in Metrology). The OIML is one of the Member Organizations of the JCGM.

A certain number of comments were received during the drafting of an earlier version in 2009 – these comments are included in the zip file which can be downloaded from the CDs page of the OIML web site and which also contains an introductory letter from Prof. Andrew Wallard, BIPM Director, and the document itself.

CIML Members and OIML Corresponding Members are requested to reply to me directly with any comments at the latest by 14 February 2011, to give the BIML time to collate the comments in time to present them to the JCGM at the beginning of March 2011.

Please contact us if you have any difficulties.

Yours faithfully,

**Willem Kool**  
*Assistant Director, BIML*
