

BIML 12 no. 178

14 August 2012

To: CIML Members

Subject: CIML ballot on new Draft Recommendation
Instruments for continuous measurement of CO, NO_x in stationary source emissions

Dear Colleagues,

Following a successful vote on the 3CD of this new publication, the convener of TC 16/SC 1/p 1 has made revisions to the draft taking into account the comments received from members of TC 16/SC 1/p 1. The resulting Draft Recommendation has now been uploaded onto the Members' page of the OIML web site in the form of a WinZip file. CIML Members are now invited to vote in a preliminary ballot. I would like to remind you that one of your obligations as a CIML Member is to vote in CIML preliminary ballots.

As soon as possible after the ballot deadline, the TC 16/SC 1/p 1 convener will prepare the Final Draft Recommendation based on any comments received from CIML Members. A Final Draft will then be submitted to direct CIML online approval as long as this procedure is approved by the CIML at its 47th meeting in October 2012, and provided that the result of the CIML preliminary ballot is favourable.

The deadline for this preliminary ballot is **14 November 2012**.

To access the documents, please visit www.oiml.org/members. A zip file may be downloaded using the link in the "CIML online ballot and comment" table at the bottom of this page. To vote, click on "Click to vote" in the same table. You may then enter your country's vote using your personal ISO country code login and the password supplied to you previously. If you have forgotten or mislaid your personal password, please visit:

www.oiml.org/members/data/reminder.html

to retrieve it by e-mail. Please contact me if you have any difficulties.

Kind regards,

Ian Dunmill
Assistant Director
