Title: Result of CIML preliminary ballot on the DD for the revision of OIML D 1

The Draft Document (DD) for the revision of OIML D 1: 2004 *Considerations for a law on metrology* was sent out for vote and comment simultaneously for approval to the members of OIML TC 3 and for preliminary ballot to the CIML Members, with a deadline of 23 April 2012.

The result of the CIML preliminary ballot is as follows:

At the closing of the online voting:

26 CIML Members had voted in favor: Australia, Austria, Belarus, Belgium Bulgaria, Canada, Cyprus, Czech Republic, Denmark, France, Germany, Ireland, Japan, Korea (R.), Monaco, Norway, Poland, Romania, Serbia, Slovakia, South Africa, Tanzania, Turkey, United Kingdom, United States, Vietnam.

1 CIML Member voted against: the Netherlands.

30 CIML Members did not vote.

The BIML subsequently sent out a reminder upon which nine more positive votes were received:

Brazil, Cuba, Israel, Italy, Kazakhstan, Kenya, New Zealand, Switzerland, Sweden.

Five CIML Members submitted comments: France, Germany, Japan, the Netherlands, and the United Kingdom (see document TC 3/P 6/N 003).

In summary: 35 votes in favor, 1 against and 21 failures to vote.

Considering that a majority of CIML Members has voted in favor and there are no objections requiring substantial amendments of the text (the objection from the Netherlands requires a minor amendment), the DD has **passed** the CIML preliminary ballot.
